

Won't dry out for 2 weeks without a cap*

Artline®
Make an impression

**PERMANENT
DRY SAFE INK**

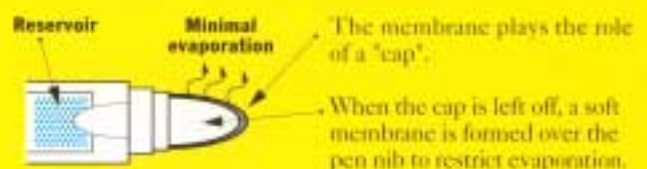

* Under control tests of 30 degrees Celsius and 65% humidity

Artline 170  **2mm** **Artline 190**  **5mm**

XYLENE FREE

Unlike most permanent markers, the Artline Dry Safe marker will not dry out, even if the cap is left off for two weeks. Why? A membrane forms over the nib to protect the ink when the cap is left off. This allows the Artline marker to keep working when you're too busy to replace the cap.

Artline® DRY SAFE MARKERS

Cap can be left off two weeks without drying out*

*UNDER CONTROLLED TESTS 25°C 65% HUMIDITY.
