Artline[®] WHITEBOARD RANGE

Essentials Kit

The Artline Whiteboard Essentials Kit has been designed to give the commercial whiteboard buyer a head start in the care and use of whiteboards, and ideally, should be purchased at the same time as the whiteboard.

The kit contains essential items such as:

- **Artline Whiteboard Cleaner** - designed to care for the board's surface. This specially formulated cleaner easily removes all permanent Marker Ink from the Whiteboard surface as well as cleaning off ink residue. While cleaning, it will help maintain the whiteboard surface for many years, with no problems.
- **Artline Eraser** - designed with a PVC Grip top for clean, efficient use. No ink residue on or near your hands when in use. (refills also available).
- **Artline Whiteboard Markers 577** - available in four (4) different colours. These markers are the newest in ink technology and are also suitable for Electronic Whiteboards.
- **Artline Magnetic Buttons** - available in an array of colours and sizes. Artline Magnetic Buttons are ideal for clearly identifying and highlighting areas on a Whiteboard.

These items are also sold individually as shown.
